PROFILE

Experienced Senior Interior Architect and Architectural Draftsperson with over 10 years in residential and interior projects. Advanced skills in AutoCAD, 2D/3D drafting and modelling, detailed construction drawings, shop drawings, and documentation for approvals. Strong focus on accuracy, detailing, and producing high-quality drawings compliant with building codes and standards.

EXPERIENCE

Senior Interior Architect / Architectural Draftsman and project coordinator – Asanga Samarasekara Associates Sri Lanka - 2013 to 2023 -10 Years – Full Time

- Prepare detailed architectural drawings using AutoCAD, including floor plans, elevations, sections, details, and schedules.
- Develop 2D and 3D drawings/models to support design development, client review, and construction requirements.
- Produce accurate construction documentation, working drawings, and specifications for residential and interior projects.
- Translate design concepts and specifications into compliant technical drawings.
- Ensure drawings comply with building codes, regulations, Australian Standards, and local authority requirements.
- Prepare drawings for planning approvals, building permits, and construction issue.
- Revise and update drawings based on consultant inputs, site conditions, and authority feedback.
- Conduct site inspections to verify construction accuracy against drawings and resolve documentation queries.
- Coordinate with architects, engineers, builders, and consultants to integrate services into drawings.
- Assist in maintaining project timelines, drawing registers, and documentation control throughout project stages..

Freelance Architectural Draftsman & Interior Architect - Self-Employed -6 Years

- collaborate with clients to design personalized residential spaces, manage budgets and construction, and ensure the final outcome aligns with client expectations.
